YUN LI

ABOUT ME

I am Yun Li, a postdoc fellow at CSIRO's Data61, aiming to prompt the development of machine learning and artificial intelligence. Before that, I received my PhD degree in Computer Science from the University of New South Wales, Australia, under the supervision of Prof. Lina Yao and Prof. Wenjie Zhang.

I serve as the reviewer or program committee member for a set of prestigious conferences and journals such as MM, AAAI, CIKM, The Web Conf, TCSVT, KNOSYS, TMM, etc, and serve as the Sponsorship Chair for ADMA 2024 (Top Data Mining Conference). I am also a recipient of the 2021 Google PhD Fellowship (only 4 PhD student awardees in Australia) and the 2023 Dean's Award for Outstanding PhD Theses (Top 10% of the PhD theses).

I have over 20 research papers accepted and published by top-tier academic conferences and journals, such as ICCV, TPAMI, AAAI, TMM, VLDBJ, etc. My research interests includes Data-efficient Computer Vision (such as zero-shot learning and meta-learning) and Transferable Machine Learning (such as domain adaptation and transfer learning), focusing on developing deep learning algorithms using fewer resources (such as human annotations) and having more applied domains. My research contributes to various applications in computer vision, genetic analysis, medical image predictions, and healthcare informatics.
